Letter of Recommendation

I have known Mr. Joseph Noel Kiren since January 2020 in my capacity as Professor with the Department of Aerospace Engineering. I taught him Aircraft Propulsion in his fourth semester.

Joseph is quite inquisitive with the capacity to grasp the concepts quickly and possesses strong analytical and logical reasoning skills. He is a keen thinker and realizes all his assigned responsibilities on time with minimum guidance making him intellectually independent. He has displayed a consistently good academic performance.

Joseph has got the right perspective of viewing practical problems based on the knowledge he acquired through his learning, supported by logical reasoning. I strongly believe that his sound knowledge of fundamentals, ability to apply theory to practical situations and problem-solving skills, coupled with the capacity for analysis and interpretation of results, will help in his graduate education. Joseph is capable of communicating in English in a precise and effective fashion. In addition, he has the requisite motivation and perseverance for research. He has presented his project work on improving combustion efficiency in scramjet combustor at the National Aerospace Propulsion Conference (NAPC).

I am sure that Mr. Joseph Noel Kiren will bring his unique personality, interests, dedication, hard work and creativity to the fullest extent in the area of his choice. I, therefore, strongly recommend him for admission with financial assistance to the MS Aerospace program at the Politecnico di Milano.

Sincerely,

A handwritten signature in black ink, appearing to read 'P. Vasanthakumar', with a stylized flourish at the end.

Dr. Parthasarathy Vasanthakumar, Ph.D.
